Children are natural learners. They all deserve an educational experience that fosters their curiosity and enriches their mind and spirit. At West Chestnut Academy, we embrace the uniqueness of every child and help our students to excel through a nurturing and quality education rooted in the fundamentals of the Christian faith.
EVANGELICAL TRADITION

West Chestnut Academy is part of a historic Wesleyan evangelical tradition. We provide an educational option for parents who believe their children will benefit academically and experience character growth in a Christian environment where children of differing learning styles are affirmed.

SMALL SCHOOL BIG HEARTS

With our small class size, your child will get plenty of individualized attention from our state-certified teachers. Along with the core curriculum in math, science, social studies, and language arts, students participate in physical education, art, music, Bible studies, even leadership courses. And, West Chestnut Academy provides special education and tutoring support. Best of all, it is private education that is completely affordable.

EDUCATION THAT GROWS WITH YOUR CHILD

West Chestnut Academy serves children from preschool through high school. Your child can enter our school at any stage in his or her academic journey. Academy graduates may go on to post-secondary studies at colleges and universities, trade schools, and military service, alongside their state-educated peers.
